

# How cloud computing can transform your business

**No matter what type of business you have,** cloud technology can help you increase productivity and revenue.

**80%**

of small businesses are using cloud-based applications<sup>1</sup>

**47%**

of them are using as many as they can.<sup>1</sup>

**Maximize**  
your productivity  
& efficiency

**Minimize**  
your IT investment

Laptop

Desktop

**Access the cloud from anywhere.**

Mobile

Tablet

**Benefits**  
of the  
**cloud**

- Flexibility
- Time savings
- Security
- Increased sales
- Advanced IT solutions
- Latest software with minimal investment
- Cost savings
- Convenience

## Collaborate in the cloud

Cloud computing ► benefits every division  
of your business ► everyone's job gets easier ►  
interdepartmental collaboration improves  
► productivity increases

Nearly  
**60%**

of small businesses expect  
to save money by using cloud  
services in 2014.<sup>2</sup>

Before choosing a cloud strategy,

## ask yourself these questions:

**1**

### Which cloud is for you?

- A public cloud is shared with multiple businesses (\$)
- A hybrid cloud offers shared and dedicated resources (\$\$)
- A private cloud is tailored to your business (\$\$\$)

**2**

### What does your cloud need?

- A customizable interface?
- Data storage in Canada?
- Usage pattern monitoring?
- A plan for outages?
- Control over login credentials?
- 24/7 online & phone support?

**3**

### Which service model will serve your cloud best?

- Software-as-a-service (SaaS)
- Platform-as-a-service (PaaS)
- Infrastructure-as-a-service (IaaS)

## Connect to a better solution

As your business relies increasingly on bandwidth-heavy cloud applications, a superior network becomes more critical. Shaw Business offers industry-leading speeds, a 625,000 kilometre fibre route network and a broad selection of scalable Internet plans that will meet your business needs today, as well as in the future.
